[John Carney]: "It's never been about getting elected. It's always been about getting things done."

From closing the deal with Blue Water Wind,

which means new jobs and a whole new industry,

to protecting our kids from cancer risks next door.

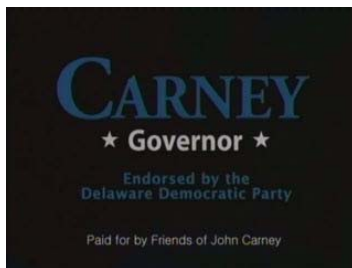

I'm going to create 55,000 new jobs, make our schools world-class and healthcare more affordable.

We're not just changing governors, we're changing Delaware."

[Announcer]: Carney. Endorsed by the Delaware Democratic Party. If we're looking for a governor

with the experience to change things, look to someone who already has. [PFB]: FRIENDS OF JOHN CARNEY
